

# Pearl

Riven

Pearl is a light gray limestone punctuated by ivory fossils. A dynamic yet refined Riven finish is applied to create a unique texture on the stone reminiscent of heathered fabric.

| Applications      |                              |
|-------------------|------------------------------|
| Interior Wall     | <b>Yes</b>                   |
| Interior Floor    | <b>No</b>                    |
| Exterior Wall     | <b>Yes</b>                   |
| Exterior Paver    | <b>No</b>                    |
| Foot Traffic      | <b>No</b>                    |
| Freeze/Thaw Wall  | <b>Yes</b>                   |
| Freeze/Thaw Paver | <b>No</b>                    |
| Wet Environment   | <b>Yes – sealer required</b> |

| Attributes                   |  |
|------------------------------|--|
| Stone Type                   | <b>Limestone</b>   |
| Estimated LRV                | <b>63.97%</b>  |
| Standard Dimensions          | <b>12" x 24"</b>   |
| Variation                    |  |
| Recommended Setting Material | <b>Laticrete Lightweight White</b>   |
| Recommended Sealer           | <b>STAIN-PROOF® Premium Impregnating Sealer</b>                                      |
| Install Instructions         | <b>Please refer to TCNA Handbook or MIA Dimensional Stone Design Manual</b>          |

| Considerations   |
|--|
| Light colored stones require grout release sealer to prevent grout staining. |
